JOHN MATURAN

SUMMARY

Data-driven and a creator who is passionate about building the future of innovation through computer science.

EXPERIENCE

Full Stack Java Developer, 04/2021 to 07/2021
Claim Academy Bootcamp

- We are developing solutions to real-world problems while learning the skills as a Full Stack Java developer in industry-standard environments using Java, agile methodology, and Restful Web Services.

25 Signal Corps, 12/2019 to 12/2020
Army National Guard - Mooresville, NC

- Installs, operates and maintains computer systems and local area networks (LAN).
- Performs network administration (NA); installs, configures and maintains network equipment within the LAN. Installs, operates, and maintains commercial off the shelf (COTS) equipment (i.e. Routers, switches, desktop and laptop computers).
- Assists in the planning, configuration, management, and monitoring of the wide area network (WAN).

11 Bravo Infantryman, 08/2016 to 12/2019
United States Army - Fort Stewart, GA

- We serve in the field, working to defend our country against any threats on the ground.
- We capture, destroy, and deter enemy forces, assist in reconnaissance, and help mobilize troops and weaponry to support the mission as the ground combat force.
- Army Infantrymen are the main land combat force and are considered a backbone of the U.S. Army.
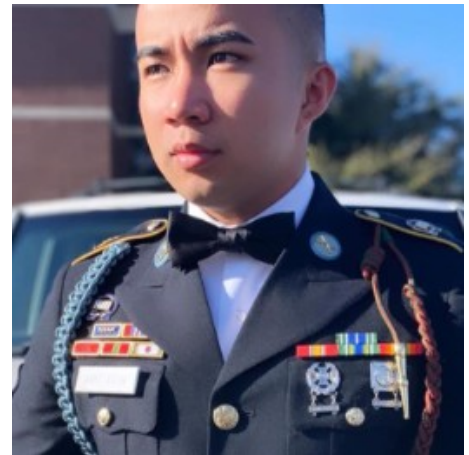

EDUCATION AND TRAINING

Bachelor of Science, Computer Science, Software Engineering, Expected in 08/2022
University of North Carolina - Charlotte, NC

PROJECTS

- 30MinutesOrLess: This is a Full Stack (MERN) Pizza/Wing Delivery Application developed using React for Front End , Redux-Thunk for Asynchronous operations, Node JS for Runtime environment , Express JS for Backend Routing and Mongo DB for Database.
- Atomy eCommerce Site: A fully functional online shopping experience that takes payments, users registrations and sign-in compatibility for wide variety of personal use. Development Tools: HTML5/CSS3, SCSS, Javascript, Firebase, React, Redux, Stripe Payment, Hooks, GraphQL + apollo, and Content API.
- Face Detection Scanner: A Full-Stack web application that can detect user-inputted images. Development Tools: HTML5/CSS3, Javascript, NPM, Web API, React, MongoDB, Node.js, Express , PostgreSQL / SQL.
